WATER / 'WASHOKU' / KōL

Washoku is a social practice based on a set of skills, knowledge, and traditions related to the production, processing, preparation, and consumption of food. It is associated with an essential spirit of respect for nature that is closely related to the sustainable use of natural resources.

和食

It is in the spirit of Washoku that we have gone to great lengths to ensure we use authentic, natural and Japanese ingredients which we use as influencers into our contemporary culinary style, to deliver an authentic and memorable experience without sacrificing the history, respect and tradition of Japan's Washoku philosophy.

It is in this spirit that we are delighted to offer you our 'Mizu' menu, in celebration and respect of water, our most precious resource, produced by Mother Nature, our most precious and respected source.

*

MIZU

Water

Water is not pure. It never has been. Water is comprised of hydrogen, oxygen, and minerals. These minerals are measured as Total Dissolved Solids (TDS) and make up the unique characteristics and taste of water.

Not all water is the same. Water is not just water.

Drinking water that has been sourced from volcanic origins, ancient artesian springs, and mineral-rich wells; hidden away for centuries, located in the most uninhabitable places on earth, provides an experience never had before. No two waters are created equal, each has its own identity and unique story to share.

TM

THE WATER MENU

Curated by Candice Jansen

WATER SOMMELIER

The experience of drinking water should be as close as possible to drinking water directly at the source - the place where Mother Nature curates the finest water known to man - where nothing needs to be added and nothing is taken away. At KōL Izakhaya, we've curated a water menu that remains true to the characteristics of water, sourced from natural origins.

*

Our foundation is built on creating a unique taste experience through food & water, where you can embark on a journey of tasting water from some of the most remote locations on earth - paired with Japanese cuisine to enhance the delicate nuances in the flavor of food.

*

Encounter the taste of water through our carefully curated water menu - designed with purpose.

Filtered with KōL Binchō-tan charcoal

PRIMAL ARTESIAN

Just the steady drip-drip of African rain

BALANCE	Still Water	TASTING NOTES Smooth. Round with a hint of sweetness. Full-bodied water. ***
SOURCE	Artesian Spring	
COUNTRY	South Africa	
TDS	320mg/l	
MINERALITY	Medium	

Not much happens where this water comes from. They had volcanoes erupt once, but it has been very quiet since. Just the steady drip-drip of African rain collecting in the aquifers those old volcanoes left behind.

Primal water is sourced from an artesian spring which occurs when natural pressure underground forces water to the surface.

Primal Artesian Water carries an International Gold Award for taste and bottle design.

500ml PET	55
1l PET	95

LOFOTEN ARCTIC WATER

Located north of the Arctic Circle between the 68th and 69th parallels

BALANCE	Still Water
SOURCE	Glacial Water
COUNTRY	Norway
TDS	30mg/l
MINERALITY	Extremely low

TASTING NOTES

Airy and exceptionally light.
Crisp and soft.

Lofoten Arctic Water is sourced from nature's paradise, the Lofoten Islands in the north of Norway, located north of the Arctic Circle between the 68th and 69th parallels.

Lofoten Arctic Water is a unique product of its landscape, with no need for filtering or distillation. The water is sourced in the majestic mountains, and the source is renewed by glacial snowmelt throughout the year, and replenished by rains during the summer.

Lofoten is soft water with crisp notes and pairs exceptionally well with sushi.

473ml Can	150
888ml Glass	345

PERLAGE

Naturally carbonated

BALANCE	Sparkling Water
SOURCE	Mineral Well
COUNTRY	Poland
VINTAGE	400 years
TDS	440mg/l
MINERALITY	Medium

TASTING NOTES

Small bubbles, champagne-like, subtle taste.

Perlage water is sourced from a natural mineral well, rich in minerals, and has an abundance of fine bubbles.

Before Perlage is gently bottled to preserve its delicate bubble, the water has a 400-year journey through the Earth's underground rock filtration, collecting its unique mineral fingerprint as it goes.

Perlage is naturally carbonated water. With its beautiful blue bottle and gentle fizz, Perlage is described as a wonderful companion to food & drink.

300ml Glass	65
700ml Glass	115

SUBLIME NATURAL SPRING WATER

Located at the foot of the Paarl mountain

BALANCE	Still & Sparkling Water
SOURCE	Natural Spring
COUNTRY	South Africa
TDS	170mg/l
MINERALITY	Low

TASTING NOTES
Smooth and well balanced,
characteristics that enhance its
taste of absolute freshness

Sublime natural spring water is sourced from a huge granite rock formed by three rounded outcrops situated above the historic town of Paarl in the western cape.

The geology of the western cape shares a remarkable similarity with the province of Mendoza in Argentina, where our water was originally sourced from, due to the fact that the African and south American continents were once joined millions of years ago, in the landmass of Godwana.

750ml Glass Still	95
750ml Glass Sparkling	95

THREE BAYS

The 2000 year vintage

BALANCE	Still & Sparkling Water
SOURCE	Artesian Spring
COUNTRY	Australia
VINTAGE	2000 years
TDS	1300mg/l
MINERALITY	High

TASTING NOTES

Sweet and creamy with a smooth mouthfeel

Deep below the picturesque Mornington Peninsula at the base of the world's oldest continent, Australia, lies one of the deepest and most ancient aquifers ever discovered.

In an incredible 2000-year journey, a trickle of water pushes through layers of mineral-rich red soil to reach the surface. From this natural and rare artesian spring, Three Bays simply harvests the overflow.

Laden with 1300 mg of mineral content per liter, Three Bays is not only intensely hydrating, but it is also the only known mineral water to supply the body with 23 of the 24 minerals considered essential to good health.

750ml Glass Still	155
750ml Glass Sparkling	155

NEVAS

Water Cuvée

BALANCE	Sparkling Water
SOURCE	Two natural springs
COUNTRY	Germany
TDS	2000mg/l
MINERALITY	Very high

TASTING NOTES

Pearly texture and substantial body.
Unmistakable taste.

Nevas Water Cuvée is the first table water of German origin, celebrating its pearly texture, much like champagne, with a popping cork and an extraordinary design, which turns every table into a festive banquet.

Nevas is extremely rich in minerals, with a TDS level of 2000mg/l, and is even richer in the tasting experience.

Blended from two natural springs, Nevas is described as fresh and elegant in taste. Both artesian mineral wells are several hundred years old.

Celebratory water of note!

750ml Glass

950

TAP WATER

Processed water

BALANCE	Still Water
SOURCE	Municipal Supply
COUNTRY	South Africa
TDS	The area of supply varies

TASTING NOTES

Water doesn't come from a tap,
it has a journey and a source.

#waterislife

Blue Drop Certification

Water is the most valued resource on the planet and we are proud to serve tap water with care and consideration.

In many countries tap water is not potable, here in South Africa our tap water is considered safe to drink.

Blue Drop Certification - South Africa
The Department of Water implemented the Blue Drop programme to encourage continuous progress and to acknowledge excellence in drinking water services management in South Africa. The Blue Drop status creates a baseline for continuous improvement.

Free of Charge

According to the National Liquor Norms and Standards under the Liquor Act 59 of 2003 "free drinking water, which includes tap water, must be made easily available at all on-consumption liquor outlets to the patrons."

Restaurants that have a liquor license are thus obligated to provide patrons with free tap water.

Free of Charge

GLOSSARY

WATER SOMMELIER	A professionally trained individual with knowledge of the different taste profiles of water. Has the skill set to pair water with wine and different cuisines. Drives water education. Gives water value.
FINE WATER	Water from a natural source, with terroir and a story to tell. Designed for the epicurean table.
TDS	TDS stands for Total Dissolved Solids and represents the total concentration of dissolved substances in water.
WATER MENU	A variety of water sources and taste profiles, enhance dining experiences.
MINERALITY	The higher the mineral content, the more distinct a water's taste can be.
MOUTHFEEL	How food or drink feels in one's mouth.
CUVÉE	A type, blend, or batch of water or wine, champagne-like.
ARTESIAN SPRING	Occurs when groundwater, under natural pressure, finds its way to the land surface.
NATURAL WATER	Natural water means bottled spring, mineral, artesian, or well water that is derived from an underground formation and is not derived from a municipal system or public water supply. Natural waters can also be glacial, rain, naturally carbonated springs, air waters, and more.
TAP WATER	Derived from a municipal system or public water supply. Highly processed.

Water with purpose.

Shōchū (Highball) - KōL Red Shiso Juice / Soda / 130

Yuzu Hachimitsu Chuhai - Yuzu / Honey / Soda / 180

JAPANESE BEER / *SUBJECT TO AVAILABILITY

KIUCHI BREWERY

The Kiuchi Brewery was established in 1823 by Kiuchi Gihei, the headman of Kounosu village in northeast Japan. His family collected rice from farmers as land taxes and he began his brewery with the idea of using remaining rice stocks in the warehouse for sake. In autumn 1996 the sake brewery began making beer with a unique owl character logo under the name Hitachino Nest. Over the years the beer has gained worldwide acclaim by winning awards at numerous beer competitions.

Hitachino Nest was the first Japanese craft beer to be exported overseas and has a cult following in Tokyo and New York.

HITACHINO NEST RED RICE ALE / 330ml 215

Complex sake like flavours with malt sweet notes. Hints of strawberries in the nose and palate. An intriguing mix of sake, malt and bitter notes in the finish.

HITACHINO NEST SAISON DU JAPON / 330ml 195

Saison du Japon is brewed with a local wheat and koji (malted rice) which is a vital ingredient to create sake. This beer has a uniquely sweet flavor of rice koji and a natural pleasing acidity caused by the fermentation.

HITACHINO NEST YUZU LAGER / 350ml 195

A classic lager with a Japanese citrus twist. This yuzu citrus lager combines the Japanese citrus fruit, similar in flavour to a grapefruit and mandarin orange, with a traditional lager to make for a delicate yet deep flavour. Enjoy the refreshing acidity from the yuzu and the crispness of a lager.

HITACHINO NEST WHITE ALE / 330ml 215

A refreshing mildly hopped Belgian styled beer with a complex flavor of coriander, orange peel, nutmeg. White Ale has won gold medals at several beer competitions in U.K. and U.S. This is one of Hitachino's top-selling beers both in Japan and the United States.

RESERVE SELECTION

OPUS ONE

Opus One is the realized dream of two men: Baron Philippe de Rothschild of Château Mouton Rothschild in Bordeaux and Napa Valley vintner Robert Mondavi. Napa Valley, California.

Opus One 2018 / 18000

Selective harvesting (the majority at night) produced a vintage recalling the generous 2001, with aromas of cassis, nutmeg, raspberries, cola, fresh oats, dark chocolate and forest floor. Polished, supple and harmoniously precise, the 2007 fuses a seamless mid-palate with soft yet sinewy tannins. The wine will age effortlessly for decades. Cabernet Sauvignon 79%, Merlot 8%, Cabernet Franc 6%, Petit Verdot 6% and Malbec 1%.

Opus One 2014 / 15000

The 2014 Opus One exudes subtle aromas of fragrant florals, fresh garden herbs and forest floor that give way to a concentrated blend of red cherry, blackberry and black currant. Fine-grained tannins offer a velvety texture and complex structure that builds to a long, vibrantly fresh finish with a touch of mocha. Enjoyable now, the wine will delight for years to come. Cabernet Sauvignon 80%, Petit Verdot 7%, Cabernet Franc 6%, Merlot 5% and Malbec 2%.

CHÂTEAU PALMER

Château Palmer is a winery in the Margaux appellation d'origine contrôlée of the Bordeaux region of France. The wine produced here was classified as one of fourteen Troisièmes Crus (Third Growths) in the historic Bordeaux Wine Official Classification of 1855. The wines from the original estates were served at the court of Versailles under Louis XV.

Château Palmer, 1987 / 16000

Pleasure above all. A desire for delight guided a vintage created in difficult conditions. A harsh winter followed by a late blossoming, a cold July and a wet harvest, resulting in a draconian selection. The result, a supple, fruity wine. In a word: pleasurable.

Château Palmer, 2001 / 15000

A benchmark Bordeaux and signature wine. Good weather conditions allowed the Merlot, Cabernet Sauvignon and Petit Verdot to mature perfectly. The grapes were extremely rich in juice and expressed the specificity of the terroir, thanks to blending that brought out all their freshness. Pure Palmer.

Château Palmer Alter Ego, 2013 / 6000 2017 / 6500

The Merlot, so important to the identity of our wines, were picked in time and showed a level of phenolic and aromatic maturity that surpassed expectations. During winemaking, the must was handled with care to avoid the extraction of any potentially rustic tannins. Merlot 46%, Cabernet Sauvignon 46% & Petit Verdot 8%.

CHÂTEAU LA TOUR

Château Latour is a French wine estate, rated as a First Growth under the 1855 Bordeaux Classification, owned by Groupe Artemis. Latour has been occupied since at least 1331 when Tor à Saint-Lambert was built by Gaucelme de Castillon, and the estate dating to at least 1378.

Les Forts de la Tour, 2014 / 15000

The colour is dark with a beautiful intensity. The nose is fruity, refined, ripe and extremely expressive. On the palate, the wine is rounded and smooth, spicy and very aromatic.

CHÂTEAU MUSAR GASTON HOCHAR, 2013 Lebanon / 2200

Chateau Msar is the name of a Lebanese winery in Ghazir, Lebanon, north of the capital Beirut. Musar grapes grow in the Beqaa Valley, a fertile sunny valley at an elevation of 1,000 metres east of Beirut.

A dense deep red with their characteristic sweet/savoury/spicy blend of Cinsault, Carignan and Cabernet Sauvignon. It reveals an elegance and roundness with a spice-dominant palate - liquorice, clove and cinnamon with a warm coulis of red fruits. "Marvellously warm Mediterranean fruits on the nose, almost the essence of Lebanon in the glass with rich spice and cooling breezes".

HOGAN DIVERGENT, 2019 Stellenbosch / R990

Meet Jocelyn Hogan Wilson, winemaker at Hogan Wines situated in Banhoek, Stellenbosch. In 2014, at the SA Swartland Revolution tasting, Jocelyn sat through a tasting with esteemed Lebanese winemaker Serge Hochar from Chateau Musar. Completely in awe of his winemaking style and vibrant personality, Jocelyn said, "Part of my journey was all about hearing him. The result Hogan Divergent was Awarded 5 stars in Platter's Guide 2022. A sensational wine inspired by Serge's classic blend of Carignan, Cinsault and Cabernet Sauvignon.

PORT

Sandeman, Portugal
Since 1790 and the most awarded Port Wine in the World. Brothers George and David Sandeman from Perth founded the company in 1790 with £300. David left the company in 1798 to establish the Commercial Bank of Scotland leaving George in sole charge. Initially passed to his nephew, George Glas Sandeman, Sandeman remained a family business until acquired by the drinks company Seagram in 1979. In 2001 the operation was sold to Sogrape by Diageo and Pernod Ricard who had acquired it from Seagram. A descendant, George Thomas David Sandeman is a member of the board of Sogrape Vinhos S.A.
